

Killingworth Open FITA

The competition was well organised and well run. Although bright for most of the day it was very windy which caused problems for the archers especially at the longer distances. There was a short spell of rain during the 50m, just long enough for us to put our waterproofs on before it stopped.

It seemed that the wind was the cause for much pain, as it was commented on during the prize giving that everyone seemed to be limping a bit. This was probably due to having to fight against the wind all day.

Despite the wind, spirits were high, with the usual joking and merriments.
